DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 7/31/03 fails to comply with 37 CFR 1.97(c) because it lacks the fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 recites "artwork images" and later recites "an artwork image". It is unclear if "an artwork image" refers to one of the previously recited images or a new image.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 08-80691.

JP 8-80691 discloses all the limitations of the instant claims including; a scented calendar formed by a plurality of sheets of paper forming artwork images and calendar images 2, an a plurality of removable scent elements (note each ink impregnated page must be removed to expose the next month page), wherein the scent elements are each encased in a plastic wrapper 3 which can be removed by a user to release a scent which corresponds to an artwork image.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2-142061U in view of JP 8-80691 and Rhodes (US# 4905112).

JP 2-142061U discloses a scented calendar including a plurality of sheets of paper forming calendar images, and at least one scent element. JP 2-142061U lacks the disclosure of artwork images and a container of fragrant oil to permit replenishment of the at least one scent. JP 8-80691 discloses a similar scented calendar and further teaches the use of artwork images. Rhodes discloses a scented cassette and further

teaches the use of a vial 87 so that the scent may be replenished. It would have been obvious to one of ordinary skill in the art at the time the invention was made to include artwork images as taught by JP 8-80691 in the calendar of JP 2-142061U to increase the aesthetic appeal of the calendar and provide a container of fragrant oil as taught by Rhodes to facilitate the replenishment of the scent element thereby allowing the user to maintain the desired amount of aroma from the calendar.

Allowable Subject Matter

Claims 12-14, and 16-20 are allowed.

Response to Arguments

Applicant's arguments filed 8/4/03 have been fully considered but they are not persuasive.

Regarding JP 8-80691 and new claim 21, the reference discloses a plastic barrier (wrapper) 3 and further suggests using the barrier on both sides of the base material, thereby encasing the aromatic ink (scent element). The scent elements are also removable as each sheet is removed so that the next month is exposed. It is maintained that the rejections are proper.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3683

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
